Learn and Grow STEM Program

Summer Enrichment 2021

Learn and Grow is an exciting fast-paced science program serving K-6th grade students in Gillette and Rozet. Throughout the summer your child will be participating in Science, Technology, Engineering, Arts and Math (STEAM) activities. They will also participate in arts & crafts, physical games, culinary arts, engineering challenges, playing at the park, water balloon fights, gardening, and outings/field trips!!

Please send your child in clothing appropriate for the weather as we go outside several times per day and often take outings off campus. Sneakers or comfortable sandals with straps (not flip-flops) are required for safety reasons while playing games and exploring outdoors. Shorts need to be worn under skirts or dresses. We will provide sunscreen but feel free to send a hypo-allergenic brand if your child has sensitivities. Breakfast (Full day program), lunch (Full Day Program), snacks and supplies are provided but your child is welcome to bring an alternate snack or a packed lunch if you choose. If your child has a cell phone, they will be asked to keep it in their pocket or small bag and are not permitted to use it unless contacting a parent. We do not allow any electronics as we are constantly on the move and would not want them to get lost or damaged. Please refrain from sending personal items with your child as we assume no responsibility for lost or damaged items. Visit with a staff member about any allergies, medications or special concerns you may have about your child.

Session 1: June 1st – June 20th/June 28th - July 2nd (No program the week of June 20th-June 25th)
